Dear Sir:

Correction of the Official Filing Receipt, and of the records of the Patent and Trademark Office, as shown on the enclosed copy, and as presented in the enclosed Supplemental Application Data Sheet, is respectfully requested.

On the Official Filing Receipt mailed April 19, 2004, the undersigned notes that, under the Domestic Priority data as claimed by applicant, the Patent and Trademark Office noted that the information submitted with this application was not consistent with the records of the Patent and Trademark Office.

On review of this matter, the undersigned has discovered that a typographical error was present in the Application Data Sheet as originally filed with this case, specifically relative to the identity of the copending application through which this application claims priority. The

A Supplemental Application Data Sheet reflecting this correct domestic priority information is enclosed. Also enclosed is a marked-up copy of the Official Filing Receipt of April 19, 2004, indicating the correct claim of domestic priority.

The issuance of a corrected Official Filing Receipt, and correction of the records of the Patent and Trademark Office, regarding this case are respectfully requested.

The Patent and Trademark Office is encouraged to contact the undersigned by telephone if questions regarding this case remain, or if a telephone conference would be useful in processing this application.

Respectfully submitted,

Title

Frame synchronization in multicarrier transmission systems

Preliminary Class

707

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
